GOOD TO KNOW

Judging for Best Trick: Five judges decide which is the most difficult and risky trick performed in the jam session. There are no points. The judges decide which trick they think was the best one.

Judging for Knock-Out Round/Superfinal: The judges award points (0-100) for each individual run. For each rider the worst of the three runs is discarded. The points awarded for the remaining two runs are then added together. The rider with the highest total number of points (max. 200) wins.
